GNÌOMH AN-DIUGH / TODAY'S ACTIVITY:

## Make a bird water tray

Bheir bùrn dha na h-eòin gu furasta!

After all this hot weather, make a water bowl that refills itself for all your favourite garden birds.

You will need: plant pot saucer, large cylindrical yogurt pot, scissors/hole punch

1. Cut a hole in the pot about 4mm in diameter, 1cm from the rim

2. Fill the pot with water, then put the plant pot saucer on top

3. Careully turn them upside down, keeping them together. Water will flow from the pot into the saucer up to the level of the hole

4. Hopefully you will get some visitors!

Tha sinn an dòchas gun tig iad a chèilidh!

We'd love to see your finished bird water bowels, so if you want to share them with us, put a wee picture or video on your Facebook or Instagram and tag your local land trust (or all of us) **@UrrasOG** **@WestHarrisTrust** **or** **@NorthHarrisTrust**
